Professional Summary

Information Technology graduate with hands-on experience in full-stack development using React.js, NestJS, TypeScript, JavaScript, and MongoDB. Experienced in building secure REST APIs, JWT authentication, RBAC, database optimization, cloud integrations, deployment, debugging, API testing, and collaborative software development.

Work Experience

Full Stack Intern – Ebryx, Lahore

July 2025 – June 2026

- Developed and maintained full-stack web applications using React.js, NestJS, TypeScript, and MongoDB.
- Built secure REST APIs with JWT authentication and Role-Based Access Control (RBAC).
- Optimized MongoDB queries to improve backend performance and application responsiveness.
- Integrated Cloudinary and email notification services.
- Participated in testing, debugging, deployment, code reviews, and Git-based collaboration.

Projects

Time Capsule Web App | [Live Demo](#)

- Designed and developed a secure digital memory platform for scheduled message and file delivery.
- Implemented JWT authentication, RBAC, secure file uploads, scheduled email notifications, and an admin dashboard.
- Built an admin dashboard with analytics, event logs, and system monitoring features.
- Integrated Cloudinary, Resend/Nodemailer, MongoDB, Render, and Vercel.
- Developed REST APIs using NestJS and MongoDB while deploying the application on Render and Vercel.
- Technologies: React.js, NestJS, TypeScript, MongoDB, Cloudinary, JWT, Resend API, Render, Vercel.

Zarina – E-Commerce Clothing Website

- Built a full-stack e-commerce application with authentication, shopping cart, checkout, and product/order management.
- Designed and integrated frontend, backend, and database components for seamless user experience.
- Technologies: React.js, Node.js, Express.js, MongoDB.

Education

BS Information Technology

Muhammad Nawaz Sharif University of Agriculture, Multan

Sep 2022 – Jun 2026

CGPA: 3.78 / 4.00

Technical Skills

Languages: JavaScript, TypeScript

Frameworks: React.js, NestJS, Node.js, Express.js

Databases: MongoDB, SQL

Tools: Git, GitHub, Postman

Cloud: Cloudinary, Render, Railway, Vercel

Testing: API Testing (Postman), Debugging

Concepts: REST APIs, JWT, RBAC, OOP, Data Structures, CI/CD Concepts
